Refund Demand – € 2.000,00 – ShutUP Forwarder (Fullstack Development)

Dear Mr. Kulkarni,

we refer to the development engagement for the project **ShutUP Forwarder – AI-Powered Car Transport Marketplace** and to our correspondence of the past weeks.

The payment of € 2.000,00 was made for a six-week development engagement with allocated resources. The promised engagement was not performed: the delivered repository shows a short development burst (01–11 July 2026; 30 commits, 25 by a single developer and 5 by the contractor), the core AI features were deliberately left unimplemented ("**AI is on purpose a blank call**", email of 15 June 2026), and no further development resources were made available. The deadline of 07.08.2026 for providing a competent developer passed without a response.

We therefore demand the full refund of € 2.000,00 within 14 days of receipt of this letter. Please transfer the amount to:

1. Account holder: **Skander Ben Abdelmalak**
2. Bank: **ING-DiBa**
3. IBAN: **DE11 5001 0517 5425 8822 07**
4. BIC / SWIFT: **INGDDEFFXXX**
5. Payment reference: **Refund – Fullstack Development – ShutUP Forwarder**

If the refund is not received within this period, we will initiate German simplified debt collection proceedings (Mahnverfahren) and enforce the claim against your German bank account.

The detailed findings are documented in the attached assessment and refund report. Mr. Peter Riep has assigned the refund claim to the undersigned; you are hereby notified of this assignment.

Yours sincerely,

Skander Ben Abdelmalak
